Filed: (herewith)

For: OPTICAL MODIFIER AND METHOD FOR THE MANUFACTURE THEREOF

Art Unit: n/a

Examiner: n/a

Attny Docket: 059-04

PRELIMINARY AMENDMENT

Commissioner Of Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In the Specification:

At page 8, line 15, add -- and/ or polishing -- after "by means of turning or milling". A recitation of "and/ or polishing" appears in the last line of page 8. Moreover, the language of claim 18 as originally filed, which is part of the disclosure, stated: "in that the part of a surface of revolution is manufactures [sic] by turning or milling, and/ or polishing." No new matter has been added. A marked-up copy of page 8 and a clean copy of page 8 is attached. The requirements of 37 CFR 1.121 are deemed to have been satisfied.

The specification, page 11, is proposed to be amended, to add a brief description of new figures. No new matter has been added. Clean and marked-up copies of this page 11 are attached hereto. At page 11, line 17, delete the "and"; and at line 19, insert as follows.

-- Figure 22 a cross-sectional view showing various cuts described,

<sup>23</sup> Figure ~~24~~ a block diagram of manufacturing method described, and

Figure 24 a more detailed block diagram of the manufacturing method. --
